

FMD ALERT*

CLASS 3 MEDICINES RECALL

Action Within 5 Days
Pharmacy, Wholesale Level Recall

Date: 12 February 2020

EL (20)A/07

Our Ref: MDR 011-02/20

Dear Healthcare Professional,

Glaxo Wellcome UK Ltd T/A GSK

Beconase Aqueous Nasal Spray

PL 10949/0104

Batch Number	Expiry Date	Pack Size	First Distributed
K84X	09-2021	1	06-Jan-2020

Active pharmaceutical ingredient: Beclometasone Dipropionate 50µg

Brief description of the problem

Glaxo Wellcome UK Ltd T/A GSK has informed us of an issue related to error in the decommissioning of the above batch. Upon decommissioning at the pharmacy and when scanning the serialised 2D code, the status of packs may report as 'DESTROYED.' Although there is no risk to product quality, any remaining stock should be quarantined and returned.

Advice for Healthcare Professionals and Wholesalers

Stop supplying the batch listed above immediately. Quarantine all remaining stock and return it to your supplier using your supplier's approved process.

Company contacts for further information

For stock control enquiries please contact 0800 221441.

For medical information enquiries please contact ukmedinfo@gsk.com, via the [Live Chat facility](#) or on 0800 221 441 (option 2).

Recipients of this Drug Alert should bring it to the attention of relevant contacts by copy of this letter. NHS regional teams are asked to forward this to community pharmacists and dispensing general practitioners for information.

Yours faithfully

*Falsified Medicines Directive Alert

Falsified Medicines Directive (FMD) 2011/62/EU introduced new requirements to enhance the security of the European supply chain. Where the MHRA has identified risks to the security of the supply chain, FMD Alerts will be issued. For further information about FMD and safety features, please see this [link on GOV.UK](#).
