### **Brief description of the problem**

Mylan UK Healthcare Ltd has informed us that a product complaint has been received relating to crystalline precipitate being observed during bottle use. Due to concerns with continuity of supply these batches are not being recalled at this time.

### **Advice for healthcare professionals**

As a precaution it is advised that the product is visually inspected prior to administration and only use if the product is clear and free from crystalline precipitate.

### **Further Information**

Please bring this notice to the attention of all relevant staff within your facility. If you have supplied units from the above batches to any other pharmacy or clinic, please forward a copy of this Alert to them.

If you do receive any units with the stated issue, please contact UK complaints via email [UKComplaints@mylan.co.uk](mailto:UKComplaints@mylan.co.uk).

For more information or medical information enquiries please contact Mylan UK Healthcare Ltd. Medical Information Department on +44(0) 1707 853000 or via email on [Info.uk@mylan.co.uk](mailto:Info.uk@mylan.co.uk)

Recipients of this Drug Alert should bring it to the attention of relevant contacts by copy of this letter. NHS regional teams are asked to forward this to community pharmacists and dispensing general practitioners for information.

Yours faithfully
